THE GRINDER

THE LOWDOWN

Before starting this workout, you will want to be adequately warmed up in terms of your core body temperature, but extremely fresh in terms of your muscle output. This can be achieved by performing 5-10 minutes of total body warmup activities like high knee running, jumping jacks, simulated jump rope, etc. Once you have broken a sweat...it's time to hit the deck and give your best pushup effort you've got. Begin this challenge by performing as many reps as you can of bodyweight pushups until failure. Upon reaching failure, take exactly 2 minutes rest and begin what we affectionately call..."THE GRINDER"! Your goal in the grinder is to perform one and a half times the number of max pushups you just completed...without ever coming up for a rest! In other words...once you start your first pushup you must continue to grind away (trying never to let your knees touch the ground again) until all reps are complete! You can "rest" by staying either in a pushup plank position or by getting in a downward dog position, just don't let those knees make contact with the ground again! Should you have to touch your knees to the ground at any point to formally rest...you are allowed exactly 10 seconds to do so...at which point you must reassume the pushup position and start cranking away again!

HERE IS THE CHALLENGE

BODYWEIGHT PUSHUPS (PERFORM TO FAILURE)

REST 2 MINUTES

BODYWEIGHT PUSHUPS (1.5 TIMES THE INITIAL NUMBER WITHOUT REST)

SCORING

Determine your score by the number of times that you need to touch your knees to the ground to get through this 1.5 times max set of pushups!

6. Pike Pushups (Shoulders)	3	To Failure				

LACTIC ACID TRIP

THE LOWDOWN

In this workout you are to perform a static isometric holding exercise for 1 minute prior to an explosive dynamic exercise to failure with the goal being to see how many reps you can achieve on the second of that pairing. Just when the lactic acid is at it's peak (from the static hold of the first part of the combo) you'll want to dig deep and knock out as many reps as you can...doing your best to ignore the intense burn in your muscles already! Your final score is determined by counting up the total number of reps that you achieve in the second half of the 4 exercise pairings across all 3 rounds! Want even more of a challenge? Take the "frequent flier" challenge and take another trip or two for one intense workout. Don't worry...the ticket is on us!

HERE IS THE CHALLENGE

PERFORM 3 MANDATORY "TRIPS" OF THE FOLLOWING:

- COMBO 1: **DELT DOOR JAMMERS INTO PIKE PUSHUPS**
- COMBO 2: **WALL SITS INTO SPLIT SQUAT JUMPS**
- COMBO 3: **HOVER HOLD PUSHUPS INTO CLAPPING PLYO PUSHUPS**
- COMBO 4: **BACK WIDOW HOLDS INTO THUMBS UP PUSHUPS**

HOLD FIRST EXERCISE FOR 1 MINUTE AND THEN COUNT HOW MANY REPS YOU GET ON SECOND EXERCISE TO FAILURE

REPEAT 2 MORE TIMES FOR A TOTAL OF 3 "LACTIC ACID TRIPS!"

SCORING

Determine your "Trip Total" by counting up all of your rep totals from the second exercise in each of the 4 combos across the 3 "trips!"

ATHLEAN Beat The Boss	119	Whipped the Trip!
ATHLEAN Xtreme	110 or Greater	Righteous!
ATHLEAN Elite	91-109	Outta Sight!
ATHLEAN Pro	71-90	Goovy!

THE MAN OF STEEL

THE LOWDOWN

Each round of the “Man of Steel” consists of 5 alternating strength and conditioning exercises. There is no rest allowed between exercises. You are permitted to FAIL once and only once in each of these exercise categories. Once you have however, your challenge is over and the round you are currently in at the time of the second failure will determine your score. For instance, you may complete 3 complete rounds of all exercises without ever failing on any. If however, in round 4, you fail to complete 10 thumbs up pushups (strength exercise)...you would be half way to being counted out! If in round 5 you can simply not perform the full duration of 30 seconds on the mountain climbers (conditioning exercise) for example, then you would have failed ONE of the strength exercises and ONE of the conditioning exercises...and will be done. What’s cool about this type of challenge is that it will surely reveal your weaknesses, or KRYPTONITE if you will! Are you a one trick pony? Think that you’ll just muscle through this and suck wind (or just plain suck!) on the conditioning exercises (or vice versa)? Not so fast my friend. Accumulate 3 failures in any one category and you are also DONE! Note the round your third failure comes and determine your score. **NOTE: Want a “Supreme” Superman of Steel goal to shoot for? Try completing the challenge using the same scoring system...except, this time...you’re not allowed to fail on ANY of the exercises!**

HERE IS THE CHALLENGE

1. **MOUNTAIN MULES - 10 REPS**
 2. **MOUNTAIN CLIMBERS - 30 SECS**
 3. **1-LEG DIVE BOMBER PUSH UPS - 5 EACH LEG**
 4. **ALTERNATING 3 POINT BURPEE - 30 SECS**
 5. **THUMBS UP PUSH UPS - 10 REPS**
 6. **PLANK WALK UPS - 30 SECS**
 7. **CROSS KNEE PLANK PUSH UPS - 10 REPS**

XERO TOLERANCE

THE LOWDOWN

Your mission in the “Xero Tolerance” Challenge...if you choose to obey it, is simply stated but not so easily executed. You must perform 300 total reps of the 5 exercises in the challenge (seen to the left) as quickly as you can. The number of minutes it takes you to complete it will determine the number of “Xero Tolerance” sets you must perform at the end of the workout! Finish your total reps quicker and face a lesser penalty. For instance, if it takes you 7 minutes to complete the 300 reps in the first half of the challenge then you will have to navigate your way through 7 rounds of “Xero Tolerance” at the end. Require 10, 12, 15 or even more minutes to complete part one and you’re going to need either know a great attorney or have one hell of an alibi! The order in which you do the exercises of the challenge and the number of reps you do at one time are up to you. Just get it done, or pay the price at the end.

HERE IS THE CHALLENGE

COMPLETE THE FOLLOWING 300 REPS IN ANY ORDER AND ANY NUMBER AT ONE TIME AS QUICKLY AS POSSIBLE:

80 FINGERTIP PUSH UPS
50 TRIPLE SKYFALLS
60 POWER PUSHAWAYS
60 HEELS TO THE HEAVENS
50 PLANK WALK UPS

XERO TOLERANCE SET
30 SECONDS OF SKIER HOPS
5 BURPEES

NOTES: Rest time between rounds of Xero Tolerance is to be kept to a bare minimum! If you finish under the 30 second mark of any minute...round down to determine the number of xero tolerance circuits you need to perform. If you finish over the 30 second mark of any minute round up.

SCORING

Determine your score by how long it takes you to complete the 300 reps.

THE PUNISHER

THE LOWDOWN

In this workout challenge, your task is to complete a certain number of goal reps for a given exercise. Every time you reach failure on your way to your goal, you receive a “punishment” (don’t worry...they’ll make you stronger so it’s not all bad!). If you receive a “punishment”, you will need to perform the predetermined “punishment” set for that exercise and then immediately resume reps of the original exercise as you make your way to your goal. On the final exercise, instead of stopping to perform your punishment DURING the path to the goal reps for that exercise you will simply add up the number of times you fail and perform 30 seconds of Wall Sits for each. For instance, if in performing the 25 total reps of “21” Crunches you need to stop 5 times, you would end your workout with a 2 minute and 30 second wall sit (5 x 30 seconds)! On this last exercise and all others, whenever you must take a break you will do so for 30 seconds. In a sense, your “punishment” is your salvation, as they are intentionally chosen to tax other muscle groups than those being taxed by your original exercise...so you can think of them as a form of active rest if that makes it easier for you to accept them!

HERE IS THE CHALLENGE

REST: 30 SECONDS EACH TIME YOU HIT FAILURE (AFTER COMPLETING PUNISHMENT) ON YOUR WAY TO YOUR GOAL

100 ALTERNATING SPRINTER LUNGES (50 each leg)

PUNISHMENT: ALTERNATING SIDE KICKTHROUGHS (10 on each leg)

75 PENDULUM PUSHUPS (right = 1 rep, left = 1 rep)

PUNISHMENT: 10 CROSS HOP PLANKS

50 MULE KICKS

PUNISHMENT: 10 SPLIT SQUAT JACKS

25 “21” CRUNCHES

PUNISHMENT: TIMED WALL SIT

SCORING

Your score is determined by the number of rounds of “punishment” you receive to get through the ENTIRE 4 exercise workout. The fewer times you’re “punished” the higher your ranking!

ATHLEAN Beat The Boss	3 “Punishments”	Got Kicked by the Mule!

XERO DARK 13

THE LOWDOWN

In this challenge you will need to complete a designated number of reps of a certain exercise as a way of pre-fatiguing the muscle groups involved in performing it. As soon as you reach this number you then, without rest, have to switch to the “dark” or harder more explosive version of the same exercise and perform 13 reps! This is a timed challenge, meaning that you will have to see how quickly you can reach “Xero dark” status on all 5 of the exercise pairings. Should you need to rest either during the initial exercises or during the dark exercises...just note, that this rest time is counting against you and ultimately determining your score. That said, never sacrifice form for speed. Execute each rep with precision and purpose. It’s time to see what you’re made of. Will you see the light of day or have your lights knocked out by the “XERO DARK 13”? It’s go time!

HERE IS THE CHALLENGE

YOUR GOAL IS TO COMPLETE THE ENTIRE CHALLENGE AS QUICKLY AS POSSIBLE WITHOUT SACRIFICING FORM
